

CREATE & APPROVE NOTIFICATIONS CHEAT SHEET

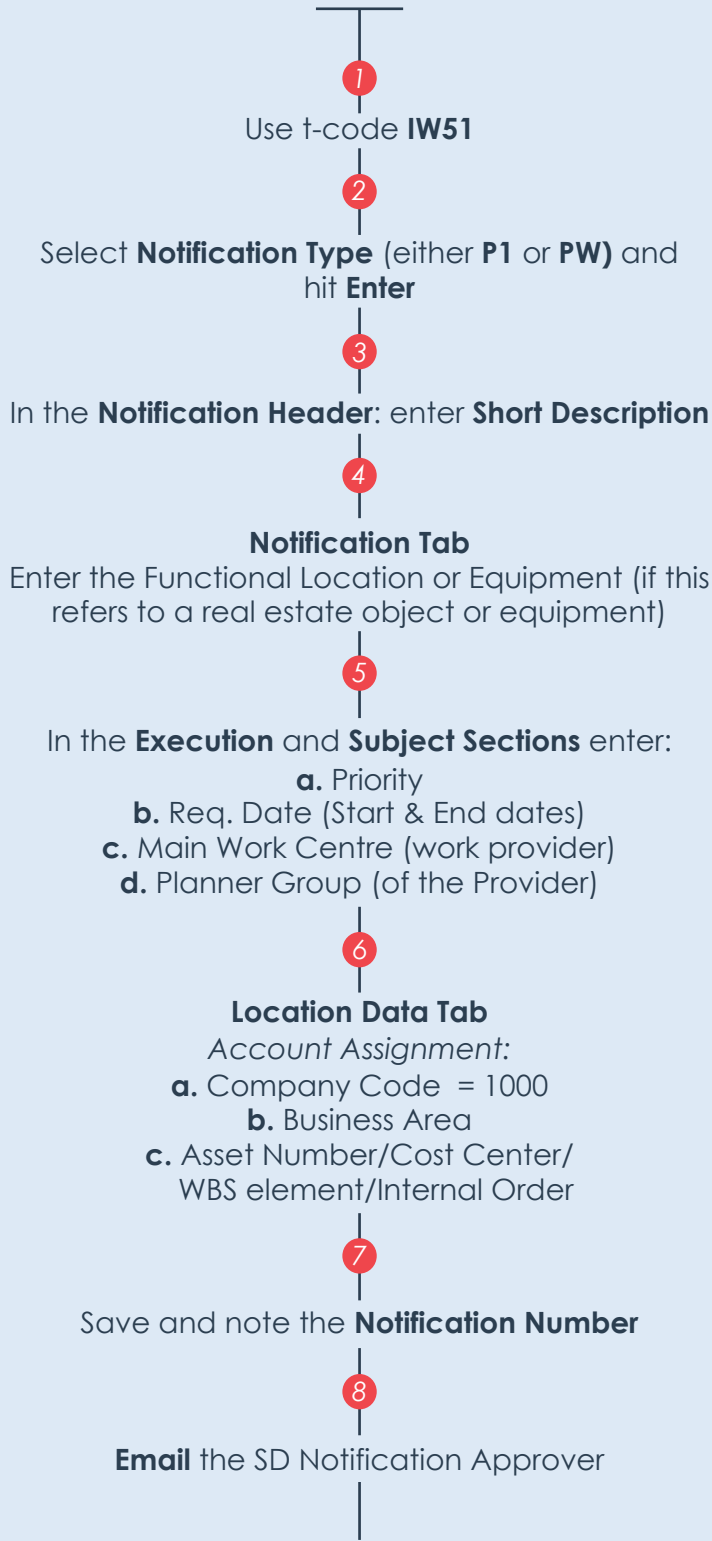

The creation and approval of Notifications should be used to request services as well as to initiate the write-off process, assign equipment, and enter accident and/or incident reports. This cheat sheet is an example of when services are provided internally (no external clients involved).

Create Notifications

Only SD.01 & SD.02 can perform the below

Steps

Approve Notifications

Only SD.02 can perform the below

Steps
