

Over 46,500 users across 420 locations use Umoja for a broad range of functions - Finance, Payroll, HR, Procurement, Travel, Logistics, Real Estate, etc. Umoja Extension 2 (UE2), comprising 41% of all Umoja processes, covers areas not previously automated and extends the user base. UE2 introduces many new technologies (software) to provide these new capabilities. It also expands and diversifies the Umoja user base, as donors, vendors, implementing partners and Member States will also interact with the system.

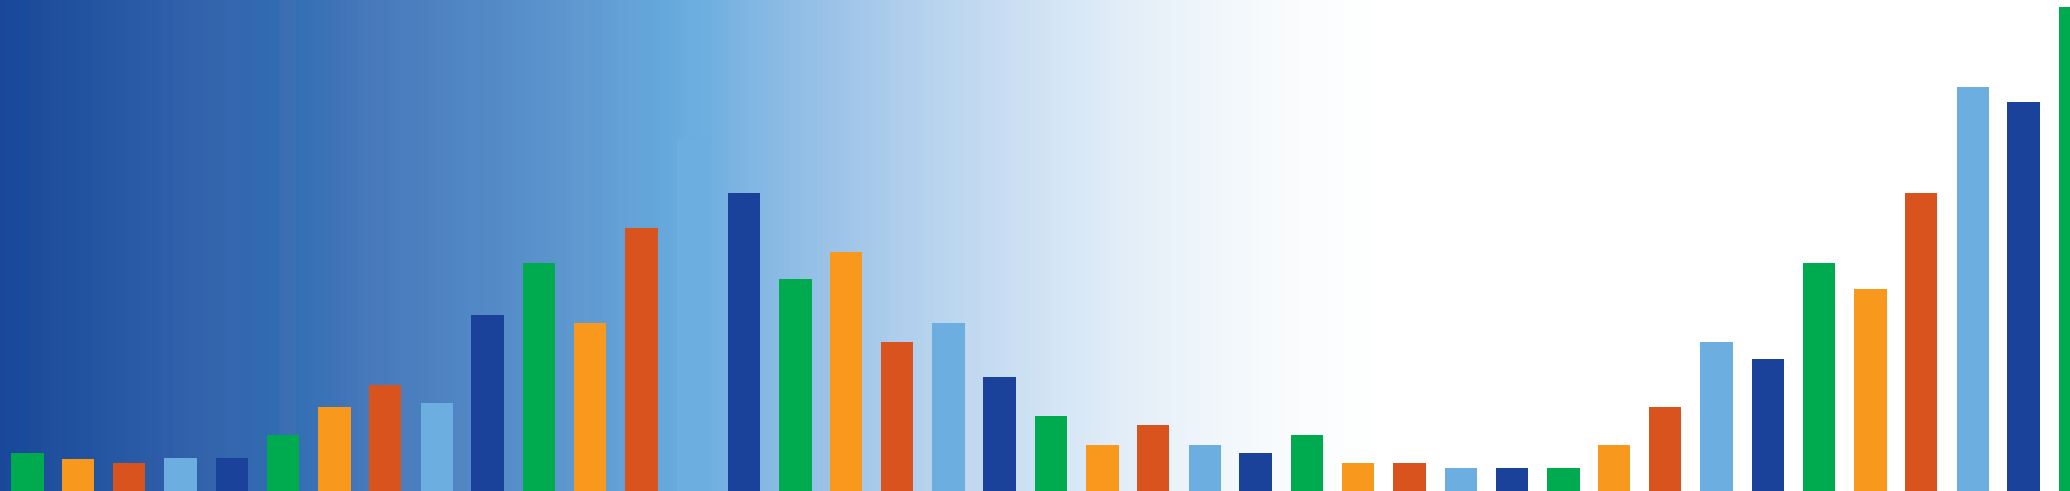

"I am happy that UE2 is being leveraged to drive substantial programmatic reforms that bring opportunities to better deliver on our mandates across the globe..."

Jan Beagle,
Under-Secretary-General for Management
Strategy, Policy and Compliance.

Enabling Change.
Expanding Possibilities.

A new look & feel.

Easier to use and simpler to navigate

Strategic Planning, Budgeting & Performance Management

- Plan and manage strategies
- Budget across funding sources
