About Umoja Mobile

Umoja Mobile is a platform, optimized to deliver a personalized, responsive and simplified user experience across all devices (desktops, tablets and mobile phones).

Users can view their paystubs and review, submit and approve leave requests using an intuitive, user-friendly interface.

Umoja Mobile can be accessed from your computer using the desktop version or via your tablet/smartphone using an app.

This course guide will cover how to download the Umoja Mobile App to your smartphone or tablet.

Intended Audience

Staff members

Accessing the Umoja Mobile App

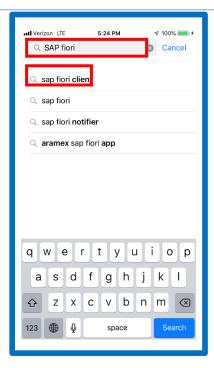

1. On your smartphone or tablet, locate the *App Store* (for iPhone) or GooglePlay (for Android phones).

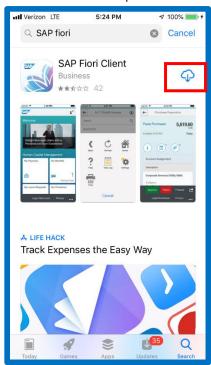

- 2. In the **Search** field, enter "SAP Fiori."1
- 3. Select **SAP Fiori Client** from the list of search results.

 $^{^{\}rm 1}$ In the next system release, this app will be customized and renamed "Umoja Mobile."

4. Download and open the SAP Fiori Client App.

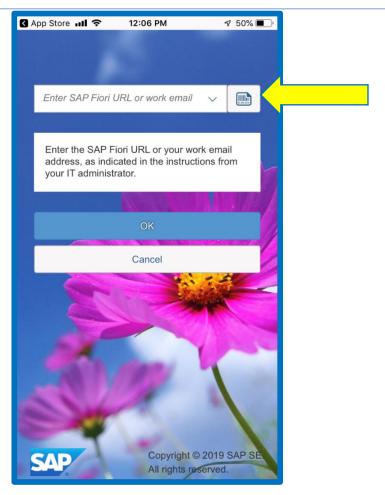

5. Select Log In.

6. In the first field, either type in: https://mobile.umoja.un.org or, scan the QR code:

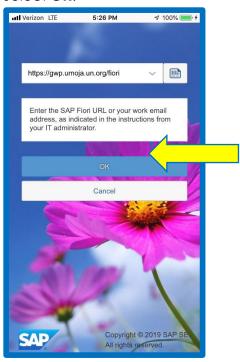

7. Select OK.

8. There is no need to setup a password here. Select **Disable Passcode** to bypass this step.

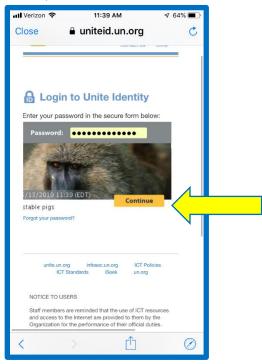

9. Enter your **Unite ID** and select **CONTINUE**.

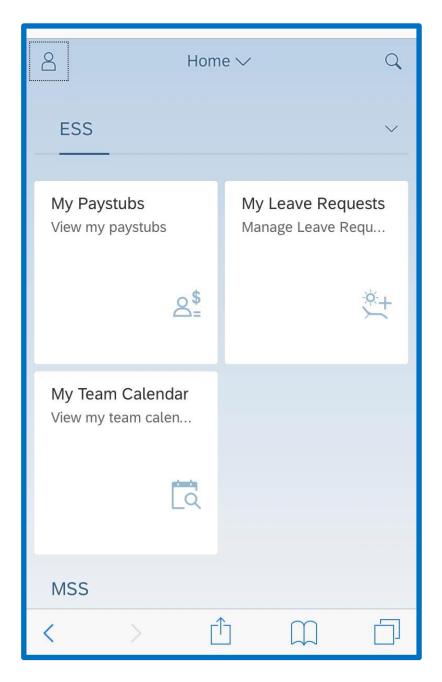

10. Enter your **Password** and select **Continue**.

11. This is the app version of Umoja Mobile. You can easily review your leave requests, your paystubs, your team calendar and approve leave requests if you're a time manager from your smart phone or tablet.
